

# Markem-Imaje Consumables

ribbons and inks ■ ■ ■

## Our expertise ■ ■ ■

Markem-Imaje has decades of experience in developing and manufacturing consumables based on strong chemical knowledge and dedicated R&D resources. Teams are proactive in the monitoring of industry regulations and compliance guidelines to offer customers the right printing solution according to their local needs.

## Your benefits ■ ■ ■

**Performance and Reliability** – Wide range of consumables for marking and coding all types of primary and secondary packaging. Products have been extensively tested to ensure optimal performance in Markem-Imaje equipment. The entire process - from initial formulation to manufacturing and to end sale - is carefully monitored. On-site chemistry resources are available to provide efficient after sales support and to ensure the reliability of the entire printing system.

**Flexibility** – According to the application, Markem-Imaje provides different technologies using different consumables: ketone/alcohol/water based inks, Touch Dry® Hot Melt inks and thermal transfer ribbons. Wide choice of options within each technology exist to allow end-users to meet branding requirement.

**Regulation Compliance** – Markem-Imaje consumables comply with industry-specific regulations such as food grade, RoHS, Sony Green Partner, etc.

**Efficiency** – On-site application and chemistry support helps you select the right consumables with the right printer to meet every application and optimize customer processes.

**Safety** – Every production site is compliant with local best practices and safety standards. Transportation and manufacturing processes are all ISO 9001 certified. Packaging ergonomics have all been designed for enhanced operator safety.

the team to trust ■ ■ ■

## Inks for the 9020, 9030 and 9040 ■ ■ ■

- Designed to print on all types of substrates from standard to high performance applications (food grade, sterilization, UV cure, egg coding, etc.)
- Available in ketone, alcohol and water bases
- Available in a wide variety of colors
- Regulations compliant (RoHS, Sony Green Partner, etc.)

## Inks for the 4020 and Crayon Plus ■ ■ ■

- Designed to print on all types of secondary packaging
- Available in alcohol, ethyl acetate and water bases
- Available in a wide range of colors
- Regulations compliant (RoHS, Sony Green Partner, etc.)

## Touch Dry® Hot Melt Inks for 5000, 6000 and 800 Series ■ ■ ■

- Available for large character and small character inkjet printers
- Touch Dry® technology – solid at room temperature and prints are immediately dry after printing
- Designed to print on a wide range of applications and substrates
- Regulations compliant (RoHS, Sony Green Partner, etc.)

## Thermal Transfer Ribbons for the SmartDate, Cimpak, Cimjet, 2000 Pallet and 2000 Series ■ ■ ■

- A wide range of approved high quality thermal transfer ribbons for both fl at and near edge printheads
- Designed to meet tough and demanding industrial printing applications
- All ribbons undergo extensive testing to ensure optimal performance with our printers
- Regulations compliant (RoHS, Sony Green Partner, etc.)
